5: Event Registration Form - Zoho Creator Reports Suite

Aim:

To design and build a complete suite of reports in Zoho Creator for the "Event Registration Form" application, demonstrating the use of all nine report types available in Zoho Creator.

Reports Used Overview

Report Type	Report Name
List View	`Event_Registration_Report`
Spreadsheet View	`Event_Registrations_Spreadsheet`
Kanban View	`Registration_Status_Kanban`
Calendar View	`Event_Schedule_Calendar`
Map View	`Participant_Location_Map`
Timeline View	`Registration_Activity_Timeline`
Pivot Table	`Event_By_Category_Pivot`
Chart View	`Event_Registration_Chart`
Summary View	`Event_Wise_Summary`

Detailed Report Descriptions

1. Event_Registration_Report (List View)

- **Purpose: Acts as the main report for the event coordinator, displaying all participant registrations in a clean, searchable tabular format.**

- **Features: Includes search, sorting, and filters for participant name, email address, contact number, event name, registration date, and registration status.**

2. Event_Registrations_Spreadsheet (Spreadsheet View)

- **Purpose: Helps event coordinators review and update registration details quickly in a grid layout.**
- **Features: Supports quick editing of selected fields such as registration status, payment status, and attendance while keeping essential participant details consistent.**

3. Registration_Status_Kanban (Kanban View)

- **Purpose: Provides a visual workflow for tracking registrations through stages such as Registered, Confirmed, Attended, and Cancelled.**
- **Features: Registration cards can be organized by status to make it easier to monitor and manage participant progress.**

4. Event_Schedule_Calendar (Calendar View)

- **Purpose: Helps coordinators view upcoming events and manage event dates, schedules, and registration-related activities.**
- **Features: Monthly, weekly, and daily views make event dates and scheduled activities easy to identify.**

5. Participant_Location_Map (Map View)

- **Purpose: Displays the geographical distribution of participants when location or address details are collected in the registration form.**
- **Features: Map pins can help coordinators understand participant locations and plan event logistics, where location data is available.**

6. Registration_Activity_Timeline (Timeline View)

- **Purpose: Helps coordinators track registration activity over time and review when participants submit their forms.**
- **Features: Presents registration records chronologically to help identify periods of high registration activity.**

7. Event_By_Category_Pivot (Pivot Table)

- **Purpose: Summarizes registrations by event name and event category to compare participation across different events.**
- **Features: Displays grouped counts and totals for quick comparison of event registrations.**

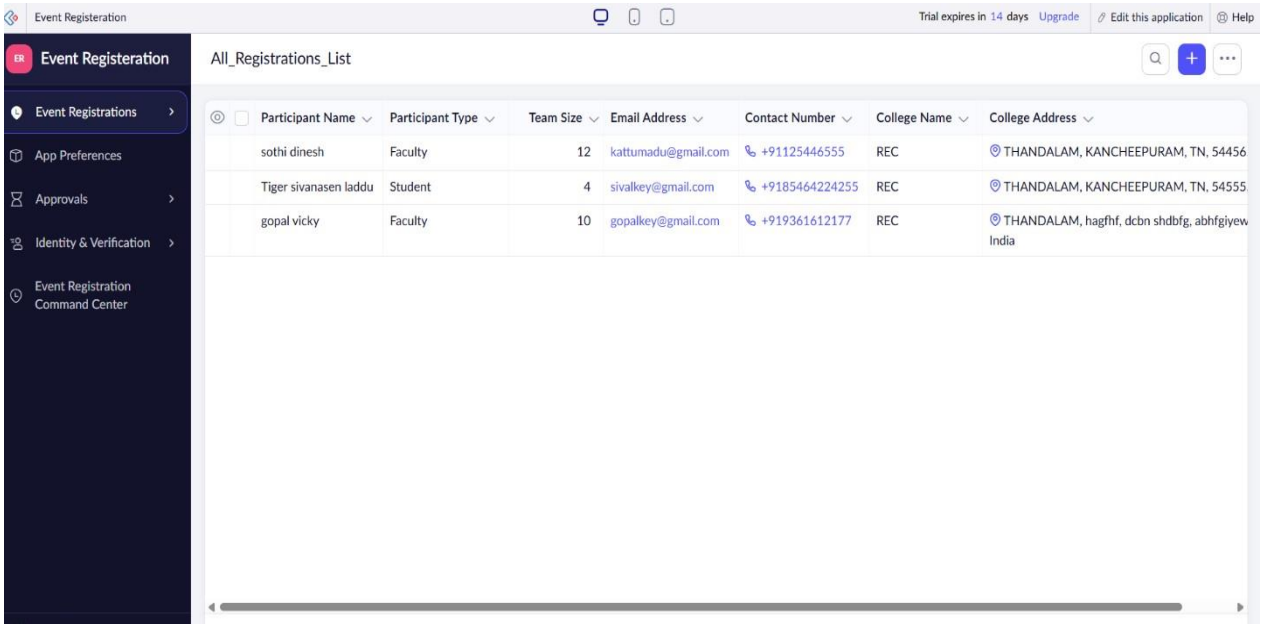

8. Event_Registration_Chart (Chart View)

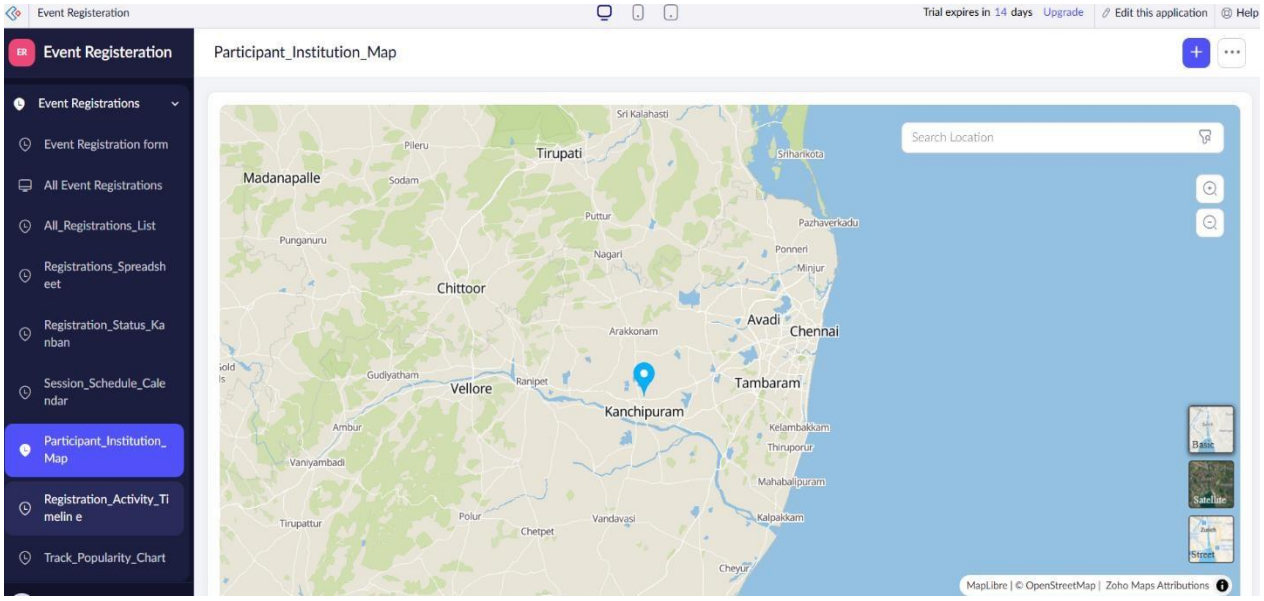

- **Purpose: Visually compares registration counts across events, categories, or registration statuses.**
- **Features: Charts and filters help coordinators identify popular events and monitor registration trends.**

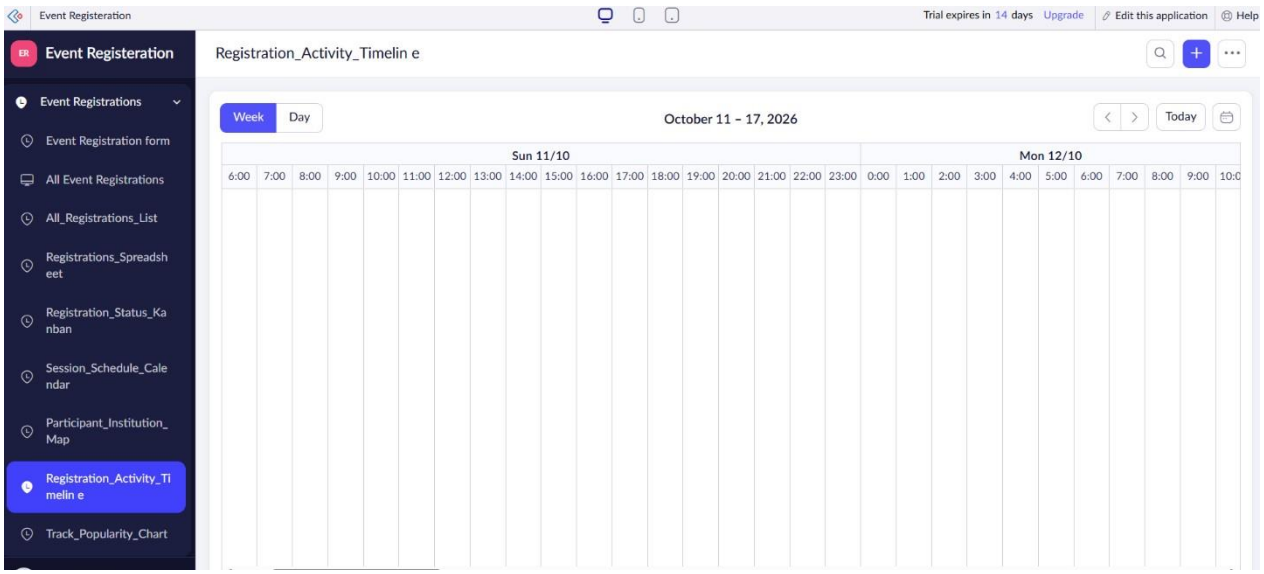

9. Event_Wise_Summary (Summary View)

- **Purpose: Provides a concise summary of registrations for each event to support planning and coordination.**
- **Features: Displays grouped registration counts and relevant totals for a quick overview of participant information.**
